

**POLY-Sonic**  
POLYESTER ACOUSTIC FELT PANELS

**MADE IN AMERICA**

**FROM FIBER, TO FELT, TO PANEL IN THE USA.**

## WHAT ARE POLY-SONIC ACOUSTIC FELT PANELS?

Poly-Sonic acoustic felt panels are a family of 100% polyester panels designed and manufactured entirely in the USA by Bouckaert Industrial Textiles to meet your acoustical needs. Poly-Sonic provides the best quality acoustical panels that are fiberglass and VOC free in the market. Every panel has a recycled content of at least 60% and can be designed to pass marketing flammability and acoustical standards.

## STANDARD OR CUSTOM

Whether you need one of our standard weights, densities, thicknesses, panel sizes, or something custom for your project, we can help.

## TECHNICAL DATA

Product	Thickness	Density	Panel Size	NRC (A-Mount)	E84 (Class A)
